News Feed - NCC

Nigerians spend more MONEY on TELECOMS than Health and FOOD.

250 Million Active SIM Cards

3 Million Nigerians Recharge their phones /hr NCC

14 Billion Naira /day on Recharge

446 Billion Naira /month on Recharge

21.4 Trillion Naira / year on Recharge

QUESTION IS, HOW MUCH COMES TO YOU?

TELECOM BUSINESS

SECRETE FINALLY REVEALED!!!

THIS IS THE REASON WHY ALL THE BANKS IN NIGERIA ARE SELLING AIRTIME, DATA, CABLE TV SUBSCRIPTIONS, ELECTRICITY BILL PAYMENTS AND OTHER VTU BASED TRANSACTIONS.

Did you know that in every **₦100 Airtime** you buy from your Bank's Mobile App, the **bank makes ₦5?**

Our population is 200million plus... Do you know that over 170 million phone lines are active? Out of these lines, 70million recharge everyday?

Now let's say that the 70million Nigerians buy ₦100 Airtime daily, multiply ₦5 by 70million...

Answer is ₦350million....this is what the banks make at least everyday... So, when you multiply it by 30 days it gives: **₦10.5Billion Every Month.....**

NOW, MY POINT IS..... *HOW MUCH HAVE YOU BEEN PAID FROM ALL YOUR VTU RECHARGES???*
